Quality Management – ECRIN Data Center Certification

_____

Promoting quality using defined standards and audits

_____

A description of ECRIN's Data Centre Certification programme and the associated standards, briefly covering the history of the programme, from its inception in 2011 until now, the nature and aim of the ECRIN standards, some of the major issues encountered within centres, and some of the successes and problems we have found in developing and running the programme.

Speaker:

Mr Steve Canham
IT / Data Consultant
ECRIN
UK / France
